V. FACILITY MAILING ADDRESS	
VI. FACILITY LOCATION	

RECEIVED
MAY 28 1983
PLEASE PLACE LABEL IN THIS SPACE
DEPARTMENT OF ECOLOGY
SOUTHWEST REGIONAL OFFICE
AMENDED APPLICATION

I. EPA I.D. NUMBER EPA0009036906
GENERAL INSTRUCTIONS If a preprinted label has been provided, affix it in the designated space. Review the information carefully; if any of it is incorrect, cross through it and enter the correct data in the appropriate fill-in area below. Also, if any of the preprinted data is absent (the area to the left of the label space lists the information that should appear), please provide it in the proper fill-in area(s) below. If the label is complete and correct, you need not complete items I, III, V, and VI (except VI-B which must be completed regardless). Complete items if no label has been provided. Refer to the instructions for detailed item descriptions and for the legal authorizations under which this data is collected.

II. POLLUTANT CHARACTERISTICS

INSTRUCTIONS: Complete A through J to determine whether you need to submit any permit application forms to the EPA. If you answer "yes" to any questions, you must submit this form and the supplemental form listed in the parenthesis following the question. Mark "X" in the box in the third column if the supplemental form is attached. If you answer "no" to each question, you need not submit any of these forms. You may answer "no" if your activity is excluded from permit requirements; see Section C of the instructions. See also, Section D of the instructions for definitions of bold-faced terms.

SPECIFIC QUESTIONS	MARK 'X'			SPECIFIC QUESTIONS	MARK 'X'		
	YES	NO	FORM ATTACHED		YES	NO	FORM ATTACHED
A. Is this facility a publicly owned treatment works which results in a discharge to waters of the U.S.? (FORM 2A)		X		B. Does or will this facility (either existing or proposed) include a concentrated animal feeding operation or aquatic animal production facility which results in a discharge to waters of the U.S.? (FORM 2B)		X	
C. Is this a facility which currently results in discharges to waters of the U.S. other than those described in A or B above? (FORM 2C)	X			D. Is this a proposed facility (other than those described in A or B above) which will result in a discharge to waters of the U.S.? (FORM 2D)		X	
E. Does or will this facility treat, store, or dispose of hazardous wastes? (FORM 3)	X		X	F. Do you or will you inject at this facility industrial or municipal effluent below the lowermost stratum containing, within one quarter mile of the well bore, underground sources of drinking water? (FORM 4)		X	
G. Do you or will you inject at this facility any produced water or other fluids which are brought to the surface in connection with conventional oil or natural gas production, inject fluids used for enhanced recovery of oil or natural gas, or inject fluids for storage of liquid hydrocarbons? (FORM 4)		X		H. Do you or will you inject at this facility fluids for special processes such as mining of sulfur by the Frasch process, solution mining of minerals, in situ combustion of fossil fuel, or recovery of geothermal energy? (FORM 4)		X	
I. Is this facility a proposed stationary source which is one of the 28 industrial categories listed in the instructions and which will potentially emit 100 tons per year of any air pollutant regulated under the Clean Air Act and may affect or be located in an attainment area? (FORM 5)		X		J. Is this facility a proposed stationary source which is NOT one of the 28 industrial categories listed in the instructions and which will potentially emit 250 tons per year of any air pollutant regulated under the Clean Air Act and may affect or be located in an attainment area? (FORM 5)		X

(I. MAP)
Attach to this application a topographic map of the area extending to at least one mile beyond property boundaries. The map must show the outline of the facility, the location of each of its existing and proposed intake and discharge structures, each of its hazardous waste treatment, storage, or disposal facilities, and each well where it injects fluids underground. Include all springs, rivers and other surface water bodies in the map area. See instructions for precise requirements.

(II. NATURE OF BUSINESS (provide a brief description))
FACILITY IS A CLAY PIT NO LONGER USED FOR RAW MATERIAL BY RIDGEFIELD BRICK AND TILE. MATERIAL DEPOSITED THERE BY PACIFIC WOOD TREATING CORPORATION AND OTHERS WAS THOUGHT OF AS LANDFILL SOLICITED BY THE OWNER.

III. CERTIFICATION (see instructions)

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this application and all attachments and that, based on my inquiry of those persons immediately responsible for obtaining the information contained in the application, I believe that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

ROCESSES (continued)

CE FOR ADDITIONAL PROCESS CODES OR FOR DESCRIBING OTHER PROCESSES (code "T04"). FOR EACH PROCESS ENTERED HERE
CLUDE DESIGN CAPACITY.

DESCRIPTION OF HAZARDOUS WASTES

HAZARDOUS WASTE NUMBER — Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you
dle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteris-
and/or the toxic contaminants of those hazardous wastes.

ESTIMATED ANNUAL QUANTITY — For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual
s. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled
ch possess that characteristic or contaminant.

UNIT OF MEASURE — For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate
es are:

ENGLISH UNIT OF MEASURE CODE
POUNDS P
TONS T

METRIC UNIT OF MEASURE CODE
KILOGRAMS K
METRIC TONS M

facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into
count the appropriate density or specific gravity of the waste.

ROCESSES

PROCESS CODES:

For listed hazardous waste: For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item III
to indicate how the waste will be stored, treated, and/or disposed of at the facility.

For non-listed hazardous wastes: For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process codes
contained in Item III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess
that characteristic or toxic contaminant.

Note: Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the
extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).

PROCESS DESCRIPTION: If a code is not listed for a process that will be used, describe the process in the space provided on the form.

E: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER — Hazardous wastes that can be described by
than one EPA Hazardous Waste Number shall be described on the form as follows:

1. Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B, C, and D by estimating the total annual
quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.

2. In column A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In column D(2) on that line enter
"included with above" and make no other entries on that line.

3. Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

SAMPLE FOR COMPLETING ITEM IV (shown in line numbers X-1, X-2, X-3, and X-4 below) — A facility will treat and dispose of an estimated 900 pounds
year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes
corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated
pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

DEPARTMENT OF ECOLOGY
SOUTHWEST REGIONAL OFFICE

Mr. Howard R. Steeley
Department of Ecology
State of Washington
7272 Cleanwater Lane, LU11
Olympia, Washington 98504

SUBJECT: Amemded EPA Part "A" Hazardous
Waste Permit Application

Dear Mr. Steeley,

Attached is our revised Part "A" Application of May 16, 1983 from which we have deleted the landfill, D80 process, and our separate Part "A" Amended Application covering the landfill only.

Our Part "A" Application of Nov. 14, 1980 listed the D80 landfill on RCRA Form 3 but inadvertantly, did not indicate the landfill location on the map attached to the Form 1 (General) dated Nov. 14, 1980.

We have revised the original Part "A" Application of Nov. 14, 1980 by changing the following:

FORM 1, GENERAL

- (a) Changed Facility Contact
- (b) Substituted Hydrocell Filter System location on map for UF/RO Complex which failed and has been removed.
- (c) Item X (D) Changed to permanent SWAPCA Permit No.

FORM 3, RCRA

- (a) Deleted D80 Process Design Capacity, Item III (B) Line No.5.
- (b) Deleted Ultrafiltration and Reverse Osmosis from Item III (C) Processes and added Induced Air Flotation Filter (Hydrocell)
- (c) Deleted D80 Landfill Process from Item IV (D)
- (d) Deleted UF/RO Complex from Item V Facility Drawing, and added Hydrocell Filter.

Also, attached, is our amended Part "A" Application dated 5/19/83. The following information is detailed:

FORM 1 GENERAL (AMENDED)

Identifies name and address of facility, Items III and VI, operator of facility, facility contact and original nature of business performed at the facility.

A topographical map section, Item XI is included indicating the relative positions of Pacific Wood Treating and the Landfill Site.

FORM 3 RCRA (AMENDED)

Describes process design capacity, estimated annual quantity of waste, identifies Elmer C. Muffet as legal owner of the property and Pacific Wood Treating Corporation as the principal operator.

It is our hope, that through this amendment process, we can correct the inadvertant omission of this information from our original Part "A" Application of November 14, 1980 for interim status.

For the record, we discontinued burning of waste sludge on January 8, 1983 and made our last delivery of ash to the Ridgefield Brick and Tile disposal site on or before January 24, 1983.

We will this week make a shipment of sludge and ash to a licensed hazardous waste site. We will continue to dispose of sludge on a permanent basis at 90 day intervals. We will dispose of the ash on the same basis until we can effect closure of the boiler plant as an incinerator or until sampling and testing will prove the ash free of hazardous or toxic waste components.

Sincerely,

Vincent F. McQuiggin
Project Coordinator

SUMMARY OF COMMUNICATION

PWT submitted a revised
Part A application to WDOE
who in turn sent a copy to
EPA. The two Part A applications
submitted are for Union Plant
Site and 3) disposal site.

CONCLUSIONS, ACTION TAKEN OR REQUIRED

With copy of this I am requesting
Toby Heddahl to assign a separate
number to disposal Part A and develop
a file.
